

Limitation of motor vehicles access and transit at Villa Monastero

We beg you to consider the following prescriptions about the access and the transit of motor vehicles within the property:

1. Access to the area

The access of any motor vehicle to the Villa Monastero is forbidden, unless it is previously authorised by the Province of Lecco.

2. Architectural barriers

The transport of people with motor disabilities from the entrance to the Villa and the way back is granted by the electric vehicle provided by the Province of Lecco.

3. Use of the provided electric vehicle

The electric vehicle is suitable for the transport of people and also of materials of limited size and weight (such as stationery, small equipment, food supplies, etc.) and therefore it shall be used for these purposes only.

4. Characteristics for motor vehicles not provided by the Province of Lecco

All the materials, for the events which take place in the Villa, for catering and for exhibitions and/or performances, can be transported, with the authorisation of the Province of Lecco, in motor vehicles with the following characteristics:

- Maximum laden weight: 1700 kg
- Maximum dimensions: 3,60 m (length) X 1,50 m (width) X 1,80 m (height)
- Maximum wheelbase: 1850 mm
- Maximum payload: 700 kg

5. Rules for the transit of any motor vehicle

The motor vehicles authorised for the access must strictly comply with the following rules:

- any transverse and longitudinal mechanical actions and abrasions to the pavement of the main path are forbidden;
- the transit on the cobblestone kerbs and on the storm drains on both sides of the main path is forbidden;
- maximum allowed speed: at a walking pace.
